EU-SUPPORTED DIGITAL TRANSFORMATION

Avrupa Birliği tarafından
eş-finanse edilmektedir

Technical Assistance for Support for the Digital Transformation of Manufacturing Industry (DIGITALTR)

Financing

Joint financing by the EU and the Republic of Turkey
under the IPA program

Aim

To increase competitiveness of Turkish manufacturing
industry enterprises by supporting digital
transformation through an enhanced policy ecosystem
and improved infrastructure

4 Digital Innovation Centers

While the centers have sectoral priorities, they
can expand their services across various sectors.

TECHNOLOGY USERS

Manufacturing businesses, especially SMEs, that want to
accelerate their digital transformation.

TECHNOLOGY PROVIDERS

Software and R&D companies that develop digital solutions
for the manufacturing industry.

What does this mean for you?

- Free expert support
- Access to Digital Innovation Centers
- Tailored support for your digital transformation

Project Services Overview

Avrupa Birliđi tarafından
eş-finanse edilmektedir

- **Where are you and how to proceed?**
Digital Maturity Assessment
- **Advance your company!**
Digital Transformation Consulting
- **Test before you invest!**
Testing and verification
- **Get tailored solutions!**
Developing joint technology solutions

→ **Your journey to Digital Transformation!**

Digital Maturity Assessment

Avrupa Birliđi tarafından
eş-finanse edilmektedir

**Determine your business's current level of digitalization
and identify areas for improvement**

Scope of Analysis

- Business Strategy and Digital Readiness
- Human Resources and Competencies
- Data Management and Cybersecurity
- Automation and Green Transformation

What you will receive

Digital transformation roadmap, identification of priority areas and laying the groundwork for transitioning to other services

Digital Transformation Consulting

Plan and implement your digital transformation with expert support

Consulting Topics

- Digital technology investment strategy
- Solution selection and feasibility analysis
- Cybersecurity integration
- Sustainability and access to finance
- Change management and competency development

Expected Business Benefits

Increased operational efficiency, sustainability, innovation capacity, and strengthened use of technology

Avrupa Birliđi tarafından
eş-finanse edilmektedir

TESTING AND VERIFICATION

Avrupa Birliđi tarafından
eş-finance edilmektedir

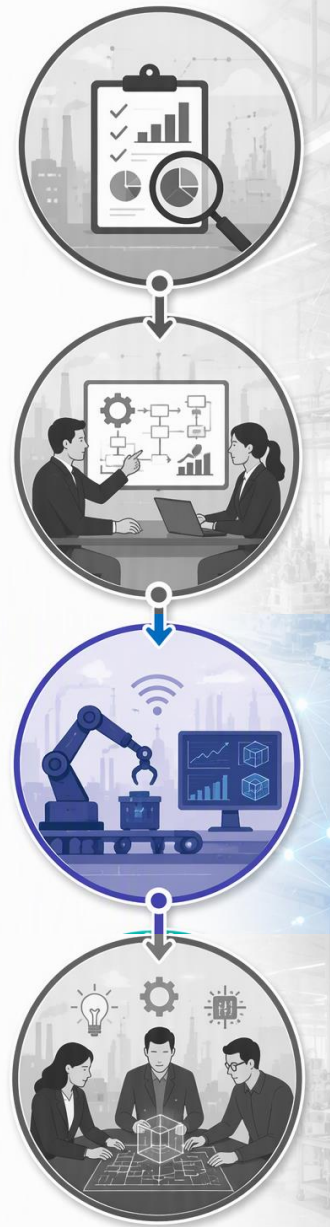

Test, validate and verify your technologies
before investing.

For whom

- **Technology Users**
Pre-investment technology testing and existing system optimization
→ Reduce investment risks before implementation
- **Technology Providers**
Testing solutions in a real production environment

Scope

Test environment setup, configuration, test execution, data collection and analysis, benchmarking

Why is this Call important for you?

Why Is This Call Important for Technology Providers?

The DIGITALTR Open Call enables technology providers to engage directly with manufacturing companies seeking digital-transformation solutions. It offers opportunities to demonstrate their technologies, develop solutions tailored to real industrial needs, establish new partnerships and expand their business networks through the DIGITALTR ecosystem.

Why Is This Call Important for Technology Users?

The DIGITALTR Open Call enables manufacturing companies to assess their digital maturity, identify priority areas for improvement and access expert support tailored to their specific needs. Participating companies can test relevant technologies, develop practical transformation roadmaps and implement solutions that improve their productivity, competitiveness and resilience.

Specific Guidance for Technology Providers

Avrupa Birliği tarafından
eş-finance edilmektedir

Technology providers may apply for the service or services that match their needs; they do not need to apply for a Digital Maturity Assessment (DMA) .

They may apply directly for Consultancy, Testing & Verification, or Joint Technology Solution Development (JTSD), where the proposed work fits the scope of the service.

1. Select

Relevant service

2. Apply

Separate form per
service

3. Explain

Need, technology
and outcome

4. Identify

Manufacturing
company and its
role

5. Attach

Relevant technical
documents

Joint Technology Development

Avrupa Birliđi tarafından
eş-finance edilmektedir

Develop digital solutions tailored to your business's specific needs with the help of experts

Activities

- Technical consultancy and feasibility
- Research design and prototype development
- System integration and data analysis
- Testing and verification of the solution

Expected Benefits

Operational efficiency, cost reduction, data-driven decision-making, sustainability

Benefits for Participating Companies

Avrupa Birliği tarafından
eş-finance edilmektedir

BENEFITS OF PARTICIPATION

Expert support

Digital transformation knowledge and tools

Competitiveness and innovation capacity

Operational efficiency and productivity.

Strong integration

Green transition goals (EU Green Deal)

COMPANY SPECIFIC BENEFITS

RESULTS ACHIEVED IN COMPARABLE INTERNATIONAL INITIATIVES

+33,6%

PRODUCTIVITY

Significant increase
in operational
productivity

+44,4%

QUALITY

Improved product
and process quality

-16,3%

LEAD TIME

Reduction in
production lead time

-30-40%

**SEARCH TIME
FOR INFORMATION**

Faster access to data
and information

-30,7%

COST

Reduction in
operational costs

-12,8%

**INDUSTRIAL
ACCIDENTS**

Improved workplace
safety and fewer
accidents

+12,7%

SALES

Increase in sales
and market
performance

**STRONGER
COMPETITIVENESS
& SUSTAINABILITY**

Better integration
into global value chains
and green transition

Real Impact.
Measurable Results.

These results were achieved by companies
in similar programs and initiatives worldwide.

ELIGIBLE APPLICANTS AND SECTORS

Avrupa Birliği tarafından
eş-finanse edilmektedir

WHO CAN APPLY?

Legally registered manufacturing companies

Technology providers that develop digital solutions

Those who commit to actively participating

Participation in project activities by assigning personnel

PRIORITY SECTORS

Machine

Automotive and
Supply Industry

Electrical and Electronics

White Goods

Chemistry and Plastics

Textiles and Apparel

Medical Technologies

Other Sectors

While the centers have sectoral priorities, their service models and technological infrastructure can be expanded to other manufacturing areas as well.

EVALUATION CRITERIA

Avrupa Birliđi tarafından
eş-finanse edilmektedir

EVALUATION CRITERIA

Sector Suitability: The company's field of activity and the sector's suitability to the scope of the call

Motivation: The strength of the desire and commitment to digital transformation

Potential Impact: The expected impact and benefit of the support on company performance

Participation Capacity: Sufficiency of internal resources for effective participation in the process

Service Criteria: Service specific evaluation criteria as stated in the application form

Tip: Address these criteria explicitly in your application
Due to limited capacity, not all applications can be supported

Hints for Successful Application

Avrupa Birliği tarafından
eş-finanse edilmektedir

- ✓ **Explain your motivation**
Describe why digital transformation is important for your company
- ✓ **Focus on concrete challenges**
Clearly explain the problem or opportunity you would like to address
- ✓ **Demonstrate commitment**
Show that management and relevant staff are willing to actively participate
- ✓ **Describe the expected impact**
Explain how the service could improve productivity, quality, sustainability or competitiveness
- ✓ **Select the most suitable service**
Choose the service that best fits your company's current situation and needs
- ✓ **Provide complete information**
Incomplete applications may delay the evaluation process

What evaluators want to see

- ✓ Clear business challenge
- ✓ Realistic expectations
- ✓ Management commitment
- ✓ Potential impact
- ✓ Willingness to cooperate

Applicant Guidance and Support

Application Process
